

Nursery Home Learning Activity Ideas

Learn a new song.
Can you perform
the song in front of a
family member?

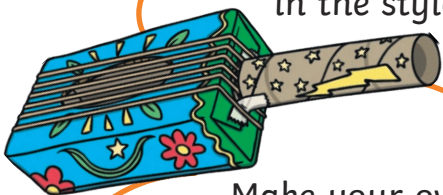

Role-play a fairy tale story. Create
stick puppets or face masks
to help you.

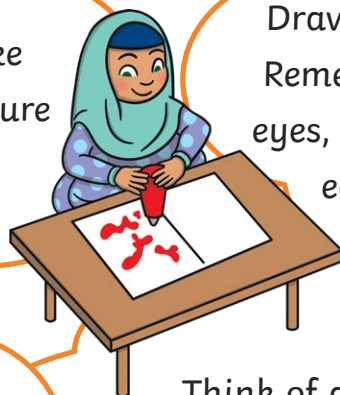

Can you use your body to make
different sounds?
What noises can you make with
your hands and your feet?
This is called body percussion.

Look at the work of a famous
artist. What do you like or not like
about it? Can you draw a picture
in the style of their work?

Draw a self-portrait.
Remember to include
eyes, a nose, a mouth,
ears and hair.

Design a new pair of shoes.
Do they have any special
features? Do they have wheels,
wings or lights? What colour
are they? Are they for adults,
children or both?

Make your own musical
instrument using junk. You could
try putting rice into an old plastic
bottle to create a shaker and
decorate it.

Think of a character from
a story. Can you dress up as the
character? Try speaking like
the character.

Choose a piece of music
and create a dance.
Can you teach
your dance to a
family member?
